Whole Home Air Treatment System

RespicaireYour whole home solution for clean

Respicaire dedicates its energy to making your indoor air environment a safer, healthier place to live. With over 85 years of expertise our air cleaning technologies continue to make a difference in improving the health of indoor air environments everywhere. **In fact, our air cleaning technology has been selected by several of the largest heating & cooling comfort suppliers in North America.**

DO YOU KNOW THESE AIRBORNE MICROBES?

POLLEN • VIRUS • BACTERIA • SPORES • MICRO-PARTICLES

WHY INDOOR AIR QUALITY MATTERS TO ALL OF US!

It is now well known that indoor air environments can affect the **health** of the people who live in them. Ever since the dramatic rise in energy costs air tightness in our homes has created the phenomenon of **"trapped indoor air pollutants"**. Statistics show, we spend a remarkable **93%*** of our lives indoors. We live, work, grow & play in artificial environments. The concern is, are they healthy?

Optional LCD for service notification

Many homeowners are aware of the ill affects associated with **polluted indoor air**. The "Quality" of our air is **degraded by airborne microbials**, allergens, pollens, spores, chemicals, virus, gases & molds. This **unhealthy** mix has contributed to the dramatic rise in allergy, asthma & respiratory illness. Fortunately, a Respicaire **Ultra Clean 99** air cleaner can make a significant difference to the health of your indoor air.

RESPICAIRE - THE EVOLUTION OF CLEANER INDOOR AIR

What can a Respicaire Ultra Clean 99, "Whole Home" Air Cleaner do for you?

Healthy indoor air is our only focus at Respicaire. We dedicate all of our resources to address this contaminant challenge by creating innovative, effective & productive product solutions.

Our new Respicaire "Ultra Clean" High Efficiency air cleaner delivers on this quest. In fact, the Ultra Clean sets a **new standard** in air cleaning, for a "Whole Home" centrally installed air cleaner. It is exceptionally efficient with a **microparticle rating of 99%** on some of the most troublesome airborne contaminants. (Independently tested & performance verified - Ashrae 52.2 standard)

Dual Collection Processes

The Respicaire "Ultra Clean" achieves this leading edge efficiency by utilizing our **2 stage, patented technology** to attract, collect & kill airborne allergens, molds, virus, bacteria and a myriad of troublesome micro particles. The Ultra Clean 99 is a hybrid design that uses a potent "**Dual Charging**" process to dramatically enhance micro particle collection. The patented process works by creating powerful electrical attraction between the airborne contaminants and our charged collection system inside each air cleaner. This tandem design works to capture airborne micro particles in **an unprecedented way**. It is a natural, safe, innovative design that works to significantly enhance your indoor breathing environment. The Ultra Clean 99 has clear performance benefits. Make the investment in healthier indoor air today with the Respicaire Ultra Clean 99.

IAQ Air Quality Facts....Did You Know....?

- 9 out of 10 breaths we draw are likely drawn indoors: at home, at school, the workplace, in transit, restaurants, movie theaters & more.
- In today's world, we inhale toxins on a regular basis. **Reducing the toxins** that you breathe can have a profound, long term impact on your health.
- Children spend more than **90%** of their time **indoors**, particularly in the home. Research has shown that concentrations of pollutants can be up to 10 to 20 times greater indoors than outdoors. Some counts are even higher.
- Children are more susceptible to indoor air pollution. They breathe 3 times faster than adults. They tend to **absorb more pollutants and toxic vapors than adults**, according to the US National Center for Health Statistics.
- Asthma rates in children have **climbed 72% and 61% in adults**, according to the ALA & the National Center for Health Statistics.
- Some research suggests that up to **90% of all colds and viruses are caught indoors**.
- It is now estimated that over 35 million Americans suffer from allergy related to the air, 15 million due to Asthma.

(Information taken from CDC – Centre For Disease Control, AMA – American lung association, AIHA – American Industrial Hygiene Association, EPA – Environmental Protection Agency, MDH – Minnesota Department of Health * EPA, American academy of Allergy, Asthma & immunology)

Maintenance

Maintenance for the Respicaire Ultra Clean 99 is remarkably easy. It is recommended that you **change** your internal **media cartridge** at least **once a year** to maximize air cleaning performance.

The replacement media cartridge can be obtained from your heating and cooling contractor.

For customer service contact 1-866-876-8044 or 1-416-615-0214.
