For the Health of Your Indoor Air

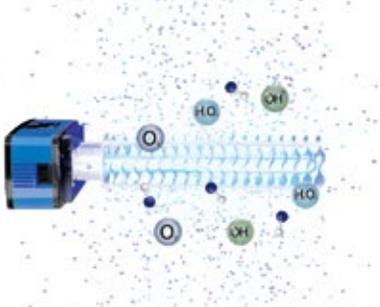

Why Indoor Air Quality Matters to All of Us?

Indoor air environments can affect the Health of the people who live in them. As energy costs have risen, air tightness in our homes have increased, "trapping indoor air pollutants." Statistics show, we now spend a remarkable 90%* of our lives indoors. We live, work, grow & play in artificial environments. The concern is, are they healthy? *EPA

What can the Respicaire® AirSterilizer PRO Air Treatment System do for you ?

The Respicaire AirSterilizer PRO™ is a powerful, whole home, air treatment system. Its potent purification technology utilizes Ultra Violet light to accelerate ionic, oxidative processes that help reduce airborne odors, VOCs, bacteria, viruses, mildew, microbial & molds. It features our patented "Spiroplate" catalytic chamber that creates catalytic reactions. These oxidizers can migrate throughout the living space to help reduce airborne contaminants. In addition the Air Sterilizer Pro has epoxied electronics and sealed lamp bases for A2L compliancy.

Aerospace Technology - The Respicaire® AirSterilizer PRO™ works several ways to purify your indoor air.

The Respicaire AirSterilizer PRO™ produces oxidizers that are highly reactive and help to reduce airborne & surface pollutants. It is a multi function whole home air treatment system. In fact, technology used in the Air Sterilizer PRO™ has been shown in laboratory tests to inactivate the pandemic corona virus in seconds. While real world results can vary, it helps to know that we invest constantly to confirm performance efficacy.
