ARRESTANCE

Take your first steps to Cleaner Indoor Air

Compliant with zero ozone emissions

Respicaire[®]
For the Health of Your Indoor Air

- SELF-CHARGING
- PERMANENT
- FOAMLESS
- LOW STATIC PRESSURE
- EASY TO CLEAN

Why Indoor Air Quality Matters to All of Us!

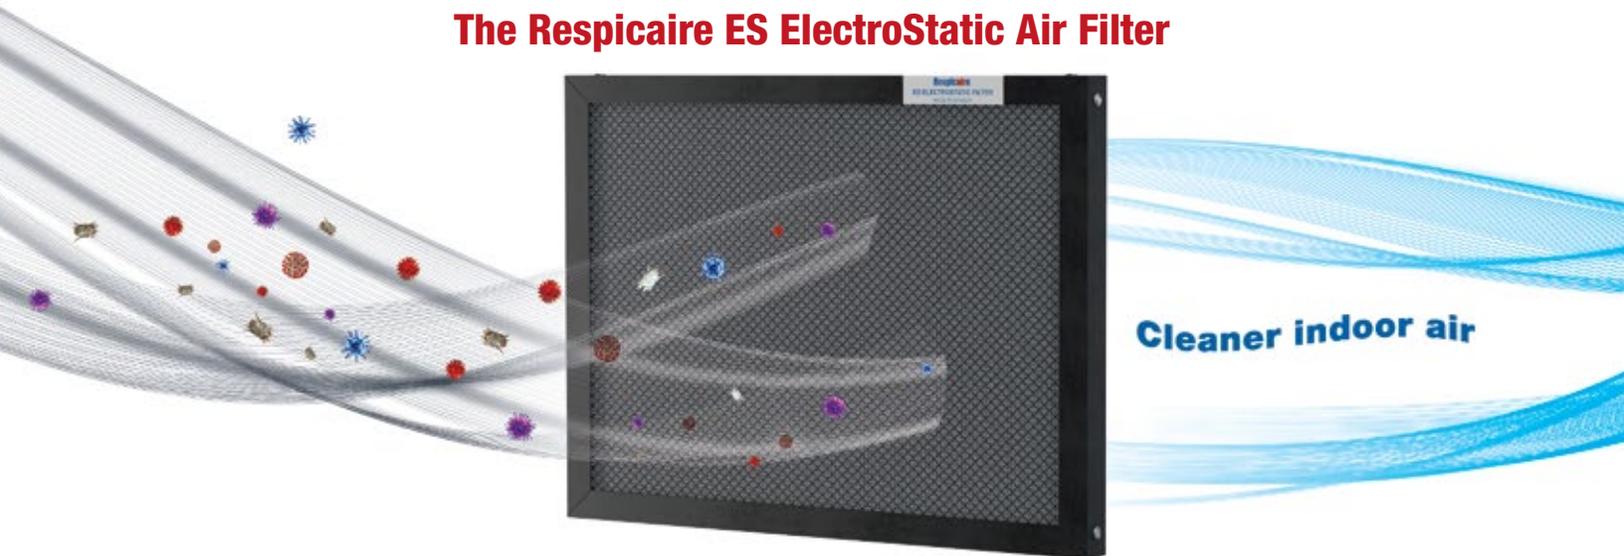

It is now well known that indoor air environments can affect the Health of the people who live in them. As energy costs have risen, air tightness in our homes has increased. This increase has created the phenomena of “trapped indoor air pollutants”. Statistics show, we now spend a remarkable 90%* of our lives indoors. We live, work, grow & play in artificial environments. The concern is, are they healthy? *EPA

What can the Respicare ElectroStatic ES Filter do for you?

The Respicare ElectroStatic ES air filter is a permanent air filter for your home heating and cooling system. With the Respicare ES filter you will never need to replace your throw-away furnace filters again.

The Respicare ES has been engineered to significantly outperform home air filters. This is due to our unique electro-static materials that create a mild static charge as air passes through them. This causes the material to attract and hold airborne contaminants. This electro-static attraction helps to clean your indoor air by removing airborne contaminants. Our unique multi-stage design provides superior filtering efficiencies and our inner collection chamber ensures long service life. The Respicare ElectroStatic ES air filter uses no foam materials that are vulnerable to degradations, clogging or the restriction of air flow. The Respicare ES has high dust holding capacity and low static pressure to help keep your heating and cooling systems operating efficiently.

The Respicare ES ElectroStatic Air Filter

The Respicare ES air filter removes unwanted airborne particles!

Unit Size	Model Part Code
16 po x 20 po	RESPES1620
16 po x 25 po	RESPES1625
20 po x 20 po	RESPES2020
20 po x 25 po	RESPES2025
Custom NM	RESPESSPNM (size)
Custom EX	RESPESSP (size)

Maintenance

The maintenance of the Respicare ElectroStatic ES air filter is remarkably easy. Simply remove the filter and “back wash” it periodically. It is that easy.
